AWAIT ANNOUNCEMENT OF LIST

**Under Old Regime Minority Members
Were Well Taken Care Of; All Four
Opposed to Local Option Bills;
Anti-Saloon League Getting Busy.**

Special to The Courier.

HARRISBURG, Jan. 11.—Much speculation is being done by the Democratic members of the House of Representatives from Fayette county as to which committees they will be placed upon when the Committee on Committees meets here next Wednesday. At the last session of the Legislature Fayette county was represented on 13 committees and John S. Carroll of Dunbar was chairman of one of the most important, the Committee on Education. It is not believed that Fayette county will fare as well this year as all the representatives are new men, with the exception of James J. Keegan of Evanson, who served in the session of 1910.

At the last session Peter J. Guyaux, Jr., of Point Marion, was a member of the following committees: Accounts, Corporations, Pensions and Gratitudes, Public Buildings, Public Roads and Railroads. Harry B. Hornell of South Brownsville was a member of the Appropriations, Bureau of Statistics, Contested Elections, Judiciary, Finance, Labor and Industry, and Public Buildings committees. John S. Carroll was chairman of the Committee on Education and a member of the Iron and Coal, Judicial, Appropriations, Library, and Retrenchment and Reform committees. David D. Johnson of Uniontown, represented Fayette county on the Counties and Townships, Geological Survey, Judiciary, Finance, and Pensions, Public Buildings and Public Roads committees.

The Fayette county members were handed blanks in which they were asked to write the names of the committees on which they wished to be placed. They will not know until they return on January 20 whether they have secured a place on the committees on which they wished to be placed.

Democratic members of the House are wondering the way they got off in the appointment of places under the new regime and some of the men who were so strenuous in behalf of "liberalization" of the rules are now made enough to vote for the Committee on Committees unless they are assured of places.

In other words, the Democrats having conceived the hope of rule in the State "bosser" to go into the Legislature with a change of rules as their slogan and the Republicans and Independents simply took it away from them. The result is that whereas under the old way the Democrats were always sure of a half dozen or so good places on the important committees, they do not know where they will finish.

The report of the Committee on Committees which will be sent to the State Committee in the House is pretty certain to be acceptable to a majority of the House, which will immediately put it through. As the Democrats have been demanding the "rule of the people" it is not likely the committee will consider that the Democracy is not interested in such plain things as patronage.

The Rev. Dr. C. A. Carroll, superintendent of the Anti-Saloon League, said today that the local option bill would probably be for counties and municipalities of more than 10,000 population. He said:

"It is our plan to have our bills presented early and we will urge them. In addition to the local option and early closing bills, we will present a measure to carry out the recommendations of the Governor's message, although we had planned them before the message came out. I am heartily in favor of the Governor's club and brewers' agents recommendations. We are now in touch with men regarding introduction of our bills."

The four Fayette county members of the House have declared themselves as being opposed to any local option measures.

FOR SAFETY AT SEA.

Ship Captain Gets Hearing for Absence of Wireless Equipment.

BOSTON, Jan. 11.—Considerable interest is manifested in mercantile marine circles in the case of Captain John Hall of the Alton liner Nantux, who was given a hearing before United States Commissioner Hayes today on a charge of failing to have on board the ship efficient apparatus for radio-communication.

Captain Hall was arrested under the provisions of the new law, passed as a result of the Titanic disaster, which requires higher standards of equipment on all ocean-going vessels.

Robs Girl Cashier; Caught.
CAMDEN, N. J., Jan. 11.—When Ellen H. Jeffers, cashier of the Richmond W. Jeffers Company, stood back this morning from the bank with \$500 cash, a man threw a paper into her eyes and grabbed the money. She was caught after a chase of three blocks.

**CONTINUED RAINFALL CAUSES
WEATHER BUREAU'S WARNING**

**Forecasters Pennwalt of Pittsburgh
Believe Danger Is Past, But
Advise Paying Safe.**

PITTSBURGH, Jan. 11.—Heavy rains throughout the district today caused forecasters Pennwalt of the local weather bureau to warn low-lying tenants of the city to delay replacing their furniture and merchandise in the flood sections buildings.

"I am not predicting another flood," said Pennwalt, "but the conditions are threatening. The river stage here has fallen rapidly but there has been three-fourths of an inch of rain up the Allegheny valley and one-half an inch in the Monongahela valley."

WHEELING, W. Va., Jan. 11.—The greatest danger of the present flood stage in the Ohio river appears to have passed today, despite the fact that there was a steady fall in the night all along the river district, from Pittsburgh south.

At 8 o'clock this morning the river stood at 37 feet, having fallen over 7 feet from the flood stage of 44 feet 4 inches at the same hour yesterday. During the later hours of the night the water had fallen 4 inches an hour and it was not believed that last night's rains would cause it to go higher today. Railroads and street cars resumed traffic today.

CINCINNATI, Jan. 11.—Cincinnati, the center of the Ohio valley flood district today, was a scene of activity as all the representatives are new men, with the exception of James J. Keegan of Evanson, who served in the session of 1910.

VOTE ON MONDAY

**Electors Will Cast Their Ballots at
State Capitol.**

WASHINGTON, D. C., Jan. 11.—The final vote which will make Woodrow Wilson President on March 4, that of the electoral college, will take place throughout the country Monday. The electors will meet at the capitol of 48 States, formally to cast ballots for President and Vice President.

Meeting at the various State capitols of the electors (chosen by popular vote) will be preliminary to the actual election of President Wilson and Vice President Marshall on February 12.

Lincoln's birthday anniversary, which is celebrated in many States, will be observed in Washington, with the official count of votes of the electoral college.

Two sets of the electors' votes will be signed by the Governors of the respective States and dispatched here, one set by mail and one by special messenger. The messengers are chosen by the electors usually from among their members. The result of the electors' vote is received by the President pro tem of the Senate.

Canvassing of the electors' ballots will begin at 1 o'clock February 12, at a joint session of the Senate and House. The electors' dispatches to the President pro tem of the Senate and will be opened and counted, the number announced by the President pro tem, being the final declaration of a new President and Vice President.

BIG PARCEL POST BUSINESS

**Hitcheck Asks for More Cuts and
Change of Rates Desired.**

WASHINGTON, Jan. 11.—Exactly 1,300,000 packages went through the post offices of the 50 leading cities of the country during the first week of the operation of the new service, according to telegraphic reports received yesterday by Postmaster General Hitcheck.

As the cities handle about one-half of the postal business of the country, postal officials estimate that between three and four million parcel post packages were mailed from January 1 to January 7. New York City led with 118,000 packages, Chicago followed with 93,000 packages and Boston was third with 174,000 packages.

No trouble or delay was experienced, but the Postmaster General said nearly all of the \$75,000 originally appropriated and he has asked for another appropriation of the same amount for the remainder of the current fiscal year.

Representative Anderson of Minnesota yesterday introduced an amendment to the parcel post act providing that in no instance should the rate on parcel post matter be greater than the rate on fourth-class matter. He claims the rates on package weighing from one ounce to 32 ounces are ten high.

PUDDLERS GET INCREASE.

**Advanced Rate Is the Highest Wages
Paid for Five Years.**

YOUNGSTOWN, O., Jan. 11.—At the bi-monthly wage conference held yesterday afternoon by the Associated Association of Iron, Steel and Tin Workers and the Republic Iron & Steel Company, the rate for puddlers was advanced from \$5.15 to \$6.35 on a 2.40 card rate.

This is the highest wage paid puddlers for five years. Fifteen thousand mill workers are affected by the increase.

PENNSYLVANIANS ARE BLAMED

**Automobile Driver Denies Excessive
Charges for Runaway Pair but Insists
that Hyndman and Ellerslie
Pastors are Getting Rich Pickings.**

That certain Pennsylvania ministers, living at Hyndman and Ellerslie, spend much of their time on Baltimore & Ohio trains bound for Cumberland, picking up eloping pairs and reap rich "pickings" in aiding them to be married under Maryland's lax laws, is the declaration of James E. O'Hara, an automobile driver of Cumberland who is alleged to be a member of the so-called "marriage trust."

According to O'Hara, these ministers board the passenger trains, spot the elopers and immediately take them to the law, charging liberally for their services. O'Hara insists that these preachers charge more for their work than do the cabbies who haul the runaway couples.

The standard rate for the "trust" members is \$10 per hitch, O'Hara explained. Out of this comes one dollar for the minister and \$4.50 for the minister and \$4.50 for the cabman.

The chauffeur explained the process. Elopers pairs which dodge the law are spotted by the cabbies. The cabman collects \$10 on the spot. Then he drives to the court house where the marriage license is procured, the cabman paying for it. On leaving the court house the cabman slips \$4.50 to the prospective bridegroom, which is to be turned over to the minister. The cabman retains the remaining \$4.50.

"Those fellows are mighty generous," explained O'Hara. "Why nearly every one pockets the \$4.50 and hands the minister a five dollar bill." O'Hara said that at least two ministers make a practice of riding either on Baltimore & Ohio trains, or the Pennsylvania branch from Bedford to Hyndman. He claims they run in the night, and make every four pairs that arrive in the city.

"We can tell how business is falling off. We see these fellows leading this prospective bride parties to certain lawyers' offices."

Efforts have been made by the Cumberland City Council to apply the curb to the alleged "marriage trust" and to this end an ordinance has been passed fixing the maximum charge for cab service at \$5.

PLACE BIG GENERATOR

**West Penn Prepares to Turnish Power
for New Extension.**

A big generator, with a capacity of 60 kilowatts, has arrived at Latrobe and is being transferred to the substation of the West Penn. It is to be set up at once, to be ready to furnish power for the Latrobe-Harris Railroad Company, when the new line is put into operation.

The Latrobe-Harris line will receive power from two different points, the Latrobe and the Mount Pleasant substation.

STRIKE PROBE CERTAIN.

**Congress Expected to Investigate West
Virginia Troubles.**

WASHINGTON, D. C., Jan. 11.—That the House will authorize a Congressional probe of the West Virginia coal strike was said to be certain by Representative Wilson of Pennsylvania, chairman of the House Labor Committee, at a busy meeting here today to aid the strikers, at which Mother Jones made an address.

Frank Riays, Vice President of the miners' union, declared that the West Virginia State officials have brushed aside the constitutional rights of the miners in declaring martial law.

GOT IN THE FLOOD.

**Constant Roland Taken on a Wagon
Through High Water.**

Constable William Roland of Dunbar had quite an experience in getting down the river yesterday. He was taken on a wagon on account of the high water. He left Pittsburgh on a Second Avenue car and near Homestead he was taken on a wagon for the river.

The passengers were taken from the car and hauled through the water in a wagon for a distance of about 200 yards.

**D. K. ARTMAN SELLS HIS
BUSINESS AFTER 25 YEARS**

**For Quarter of a Century a Merchant
in Connellsville, He Disposes
of Store.**

D. K. Artman, a merchant here for a quarter of a century, has closed negotiations for the sale of his novelty store on West Main street to the Grand Five and Ten Cent Store of Pittsburgh. The purchasing company, consisting of three and ten cent stores and two other department stores in Pittsburgh and Carnegie. They will take over the Artman business within the next two weeks.

A new lease for the store room on the second floor was concluded last night, which carries provision for extensive improvements. Mr. Artman's plans for the present, at least, and has no plans in view at this time.

Mr. Artman opened a store in Connellsville during the month of September, 1887. He was then located near Brimstone Corner in a building which was later torn down for the erection of the Munson building. Twenty years ago the Artman store was moved into its present location. Nearly two years ago Mr. Artman expanded his quarters, taking both of the second and third floors of the Munson building instead of only one.

A pioneer in the novelty line Artman has at all times been a leader in that line here.

GETS BIG VERDICT

**Walter W. Laughhead Is Awarded
\$18,378 from Mrs. Moore.**

UNIONTOWN, Jan. 11.—After a long trial for nearly three hours, the jury returned a verdict awarding Walter W. Laughhead, \$18,378 from Mrs. Moore for the loss of his leg.

Mrs. Moore purchased coal in Fayette county during 1902 at Laughhead's suggestion. The jury had two points to consider, whether Mrs. Moore knew the coal was defective and whether the men from whom the coal was purchased, and if a contract made in Washington was either directly or indirectly responsible for the eventual loss of the leg to Mrs. Moore.

The suit of John Nagle and his son, against the Monongahela railroad was taken up yesterday before Judge J. S. Swearingen. The Nagle boy lost his leg beneath a railroad train and suit was brought for \$15,000 damages. The accident happened on March 16, 1910.

The suit of Mark Komenda, against Jiva Samanidis, in which the plaintiff asked \$4,000 damages for slanders, the jury returned a verdict of \$500 in his favor.

In the will of James Stanton, of Georges township, which was probated yesterday, an estate of about \$2,800 is divided among three children.

One hundred dollars is to be set aside for a monument for himself and wife. In the division of the estate a son, Grant, and a daughter, Mrs. Jane Harvey, are to receive \$500 each. The other children, William and Grant, two sons, are named as administrators. The will was dated January 1, 1911.

Following a habeas corpus proceeding, Oswald Solary, charged with the murder of his brother-in-law, Twintun Gurnah, was released on \$10,000 bail. The bond was signed by Jacob Solary and Jull Ward Newcomer.

FIRE BOSS INSTRUCTION GIVEN

**Beginning April 1. Instructions Will
be Given for Mine Foreman Test;
State Inspectors Say Course Is
Best Ever Offered in This Section.**

Mining work in the Connellsville Y. M. C. A., under the direction of the University of Pittsburgh and the State Y. M. C. A. Mining Department, will be begun this evening at 8 o'clock, when Professor J. Z. Zimmerman, mining engineer and member of the University faculty, will appear to give the initial lesson.

Professor Zimmerman is expected to be accompanied by State Mining Work Secretary T. H. Ditts of Greensburg. A fair sized class is anticipated for the first enrollment.

For the next three months a short course for the boss students will be given, closing with State examinations in April. A three-month Mine Foreman's course will begin on April 1 and continue through May and June, resuming on October 1.

Mine Inspectors C. B. Ross of Latrobe and L. S. Roby of Uniontown, have inquired into the plans for the classes here and declared to Secretary B. T. Baer that the opportunities for the men here will be the best ever offered through a Y. M. C. A. in the Connellsville region.

Connellsville's mining class will be on Saturday evenings and will be instructed by Professor Zimmerman, who has been assigned to mining work at six places in Western Pennsylvania. He and Mining Work Secretary Ditts have organized a class of 25 men, one of 19 at Republic, a third of 12 at Mainland and a fourth at West Newton. The latter organization was effected last night.

The class here will be the fifth and an entire week's work will be arranged with the organization of a class at Mainland No. 2 on Tuesday evening. "Coal and Metal Miners' Pocket Book" will be the text book used by the students here. With that they will study the bituminous mine laws and Seddon's self-help series on mining.

NEW INSURANCE LAW

**England's National Measure Goes Into
Effect Next Wednesday.**

LONDON, Jan. 11.—Next Wednesday is the day on which the benefit provisions of the much-discussed National Insurance Act will come into effect. The act, it will be recalled, is a measure for insuring working people against illness or disability by means of a fund to which the workers themselves, their employers and the government contribute in certain specified proportions.

It will affect more than 13,000,000 persons of all ages, sexes, and occupations. Under its provisions all workers are entitled to get free medical attendance when they are ill, and if permanently incapacitated from earning a living for themselves, a benefit until their seventieth year, when they will be entitled to enjoy the benefits of the Lloyd-George old-age pension law of 1908.

**BALTIMORE & OHIO PLANS
FOUR TRACKS FOR SYSTEM**

**Reported that Millions Will be Spent
Increasing Trackage Between
Here and Pittsburg.**

Plans for four-tracking the Baltimore & Ohio railroad the entire distance between Pittsburgh and Connellsville at a cost of several millions of dollars are said to be revealed in the activities of the railroad's real estate agents in West Newton, Dawson and other towns along the division.

In West Newton the railroad is said to have virtually closed a deal for all ground, totaling many acres, between its present tracks and the Youghiogheny river. The transfer will mean the taking up of several properties owned by small manufacturing concerns.

Four tracks now run between Connellsville and Broad Ford. From the latter place to McKeesport, a distance of 42 miles, are only two tracks. Then between Glenwood and Pittsburg, five miles, are but two. This would be a total of 17 miles to be given additional tracks.

The work on the project is said to be under the direction of Pittsburg office officials.

TITLE & TRUST ELECTION

**Company Declares \$5,000 Dividend
and Adds Two Directors.**

The re-election of all officers, the addition of two men to the Board of Directors and the declaration of a \$5,000 dividend took place at the stockholders meeting of the Title & Trust Company today.

GETS EGGS BY MAIL

**Squire Bivler Receives 15 Through the
Parcel Post.**

Squire A. C. Bivler, Clerk of Council, this morning received a consignment of 15 eggs by parcel post from the Breeze Top Poultry Farms, in Upper Tyrone township. In sending the eggs, R. T. King, one of the owners of the farm, expressed the hope that the Squire would be able to raise a rooster, since the policeman recently received birds and his name was not in the list.

The eggs were sent to the former Morgan Justice of the Peace and storekeeper in order to test Uncle Sam's treatment of such a fragile business. The Kingbirds conduct a poultry farm and have won prizes. They propose to send their eggs by parcel post in the future.

There wasn't a crack in any of the 15 eggs received by Squire Bivler the postage from Owensdale was seven cents.

POLICEMEN ARE BACK ON JOB

**Head of Council Rescinds Order of
Police Committee Chairman; Council
Will Settle the Matter at Its
Next Meeting; Five State Men Here.**

Connellsville's six suspended policemen were returned to work this morning by President of Council Frank Friel, acting over the head of Chairman E. U. Hetzel of the Police Committee. Policemen James and George Francis, John Lowe, Henry Geiger, Thomas McDonald and Samuel Grisel were instructed to report at the City Hall and resume work until Council's next session, when the Police Committee's recommendation for a wage increase will be acted upon.

The majority of the suspended men received their names and badges at 9:45 o'clock, when Policemen James Francis went back to his East Side beat and Henry Geiger returned to the West Side. Thomas McDonald began his usual East Side work at noon, and the night men were ordered to turn out at 3 o'clock, following the Saturday afternoon custom.

Corporal Robert Graham of Troop A, State Police, Greensburg, said he and his men would return to their barracks. E. U. Hetzel, A. A. McPherson arrived in Connellsville at 4:30 o'clock yesterday afternoon, and Privates J. P. Stroble, F. C. McDivitt and J. A. Condit came two hours later at 4:15 night duty, but made no arrests.

President Friel sent word to Burgess J. L. Evans and several of the suspended policemen late last night that the men were to go back on their beats with morning.

Chairman Hetzel of the Police Committee, when informed of the policeman's return, said he had known nothing about it, but made no further comment.

President Friel declared Chairman Hetzel had no authority to suspend the policeman after the Police Committee had passed a resolution to annul Council to increase the men's pay, and to continue them on the force until Council's action. For that reason he replaced them.

In Thursday night's special meeting every member of the Police Committee had voted to recommend more pay for the police and to retain them in service. A few minutes after adjournment, Chairman Hetzel, on his own authority, suspended the men and announced that preparations to get the men replaced had been made before the meeting.

Chairman Hetzel upheld his stand, declaring the policeman had acted wrong by striking. He said the remaining members of the Police Committee had voted for the wage increase and continuance of the men on the force, but that he felt suspension was the only action to be taken in the situation.

Other members of the Police Committee declined to discuss the case, other than stating they had voted in favor of higher wages and continued service by the men.

In event a bill of expense incurred by the calling of the State police is presented to the Police Committee, members say they

NEWBRO'S HERPICIDE COSTS NO MORE THAN "SOMETHING JUST AS GOOD"

Why Take Chances.

For a woman to adorn her head with false braids, puffs and rats, or a man to wear toupees, is like buying an off-brand hair preparation instead of Newbro's Herpicide. The "off brand" and the "off brand" are both substitutes for the real thing. The original is always conceded to be better than any imitation or substitute. "Something just as good" is a phrase of the ranker kind.

Newbro's Herpicide is the original remedy and does its promised. Years of success and thousands of satisfied users have made it standard. Herpicide kills the dandruff germ, keeps the scalp clean and stops falling hair.

Its proper use before baldness appears makes false hair and wigs unnecessary. Newbro's Herpicide in 50c and \$1.00 sizes is sold by all dealers in hairdressing. It is to do all that is claimed. If you are not satisfied your money will be refunded. Applications may be obtained at hairdressing shops and hair dressing parlors. Send 10c in postage for sample and book on "The Care of the Hair," to The Herpicide Co., Dept. R., Detroit, Mich., Graham & Co., Special Agents.—Advertisement.

"Lefty" Flynn, Yale's Famous Football Player, And His Bride, Who is Comic Opera Chorus Girl

NEW YORK, Jan. 11.—Maurice Bennett Flynn, whose ability to kick a football with his left foot gave him much fame at Yale and also the nickname of "Lefty," will not return to the Sheffield Scientific School at Yale, and that university has lost a star athlete. The reason for his quitting his college career is found in the fact that he is a married man. His bride has been a chorus girl in various musical organizations under the name of Irene Glavin. They are planning a honeymoon trip of a few weeks, after which Mr. Flynn expects to go into business, perhaps with his father, who is wealthy and is a director in several enterprises, with an office at 2 Rectory street. Mrs. Flynn's real name before her marriage was Irene Leary, and she is the daughter of a cab driver in Holyoke, Mass. She was a member of the Yale football team.

SYRUP OF FIGS IS BEST FOR A CHILD

Cleanses Its Little Stomach, Torpid Liver and Constipated Bowels.

Mother! look at that tongue! see it coated. If your child is listless, drooping, isn't sleeping well, is restless, doesn't eat hearty or is cross, irritable, out of sorts with everybody, stomach sour, feverish, breath bad, has stomachaches, diarrhoea, Sore Throat or is full of cold, it means that the little ones' stomach, liver and 30 feet of bowels are filled with poisons and clogged up waste and need a gentle, thorough cleansing at once.

Give a teaspoonful of Syrup of Figs and in a few hours the foul, decaying constipated matter, undigested food and sour bile will gently move on and out of its little bowels without nausea, griping or weakness, and you will surely have a well and smiling child shortly.

Syrup of Figs you are not drugging your children, being composed entirely of delicious figs, senna and aromatics it cannot be harmful, besides they dearly love its delicious taste.

Mothers should always keep Syrup of Figs handy. It is the only stomach, liver and bowel cleanser and regulator needed—a little given today will save a sick child tomorrow.

Full directions for children of all ages and for grown-ups plainly printed on the package.

Ask your druggist for the full name, "Syrup of Figs and Elixir of Senna," prepared by the California Fig Syrup Co. This is the delicious tasting, genuine old reliable. Refuse anything else offered.—Advertisement.

BROOKLYN TABERNACLE BIBLE STUDY ON GOD CREATED MAN IN HIS OWN IMAGE.

Genesis 1:26-2:25; Psalm 8—Jan. 12.

How different the statement respecting man's creation from that describing the creation of plants and the lower animals which the seas and the earth brought forth. Man's creation was premeditated of God designed man to be king over the earth. He was to be his Creator's image, not in physical form, but in moral and intellectual qualities resembling his Creator, a Spirit Being. As we read, "God created man in His own image." Not a word here can be construed as implying the evolution of man from the lower creatures.

A Fall, Not an Evolution. So far from teaching Evolution, the Bible teaches the very reverse. St. Paul declares, "By one man's disobedience sin entered into the world, and death as the result of sin. The death passed upon all men, because all are sinners." (Romans 5:12) The Bible represents man as a Adam, created to be a king of earth.

Man's original sin. The details of human creation imply that Adam lived some time alone and sexless. Some Bible students infer from the chronology that it was two years from Adam's creation that he was expelled from Eden with the spirit of life common to all earthly creatures. The Hebrew reads literally, "In his nostrils the breath of life"—the breath or spirit of life common to all breathing creatures.

To Avoid Grayness.

Most women past middle age look handsome with gray hair unless they are fat and colorless, but the difficulty is to make them believe it.

A missionary says that few of the native women have gray hair when advanced in years. This she attributes to the nearly universal use of grease on the hair.

A scalp specialist when asked about this theory said: "There is much in it. Gray hair often comes from too little oil in the scalp. If women would grease their hair more it would keep its color longer."

The objection to a greasy head can be overcome. A little vaseline can be well rubbed into the scalp once a week. If this cannot be done without getting it in the long hair, go to a hairdresser.

If you will not use vaseline, at least give the hair a thorough oiling each time before it is shampooed, which should be about once a month in cold weather, often in summer.

Run the hair with crude oil the night before it is to be washed. Do not use too much. About half what the hair thinks necessary will be more than enough. As even this small amount is useless to bed linen, tie up the head and put an old case on the pillow. Some women wear a bathing cap for the one night.

Besides giving the oil needed to prevent grayness, this application of crude oil keeps out dandruff as nothing else will.

Where there is a tendency in families to turn gray early extra care of the hair must be taken. Do not use dry washes on it and be careful of hot curling irons.

Where there is a tendency to gray hair cultivate a placid disposition. Worry acts on the nerves, and nervous disorders unchecked are harmful to the hair. For the same reason fight off bad headaches. Besides their discomfort, the hair suffers. Thus indirectly eye strain is responsible for gray and falling hair.

Care of the Throat.

A famous throat doctor, who cares for the vocal organs of many of the greatest of our opera singers, makes the unqualified statement that if throats and noses were systematically cleaned many illnesses, including bronchitis, catarrh and consumption, would be averted.

A salt water douche and gargle to cleanse the throat and nose thoroughly should be used, he declares, at least twice a day.

"Fill a wide mouthed bottle," he advises, "holding a pint, with boiled water and add to it a teaspoonful of common sea salt. When you rise in the morning and when you retire at night, after gargling the throat with the solution, fill the hollow of the hand, with it and draw it up the nose, throwing the head back. This salt should be done carefully. It will cause coughing, but will completely clear all the little spaces and intricate passages of the nose and throat."

Toilet Suggestions.

When the hair splits clip the ends. For luk atoms on the fingers try soap and salt.

Corns can be removed by daily rubbing with toilet powder. One dram of boracic acid mixed with four ounces of distilled witch hazel makes a good lotion for a greasy skin. Apply with a soft cloth or velvet sponge.

When the first symptoms of a headache appear take one teaspoonful of clear lemon juice often minutes before each meal and at bedtime and continue until symptoms are past. For biliousness plain lemon juice promotes sleep and appetite.

Soap and water are needed to remove blackheads, which are caused by dirt collecting in the pores. After cleansing the face in clean water rub over it a piece of ice. This will contract the pores. After drying the skin apply witch hazel to it.

MORRIS SHEPPARD TO GET BAILLEY'S SEAT IN SENATE.

AUSTIN, Tex., Jan. 11.—Morris Sheppard will be elected to the United States Senate as successor to Joseph W. Bailey when the Legislature meets January 14. He lives in Texas, and is now serving his sixth term in the House of Representatives, having been first elected to the Fifty-ninth Congress to fill the vacancy caused by the death of his father. He is an attorney and is a graduate of the University of Texas and of Yale. He was born May 25, 1875.

Garden as to her mode of living last summer when she was residing at her country place near Aberdeen.

"Going to bed early is just as important as the other two items, and as for porridge, I can assure any one who is afraid of gaining weight that porridge diet will insure her against gain, but not against loss. You see, I am an example. I am in the best of health, eyes clear, complexion good, and I weigh exactly the same as I did last year, 137½, which is the proper weight for a singer."

For the Manicure. Percutaneous of hydrogen plays an important part in the process of manicure, for this not only bleaches out any discoloration, but it is a powerful disinfectant and will kill any germs which may have settled under the nails.

It is also useful if the file or saws slip and cut the flesh, for it will purify the cut, and if used immediately there is no likelihood of the slight injury becoming more harmful.

How Frostbite Comes. The first effect of cold on the skin is to contract the tiny vessels that connect arteries and veins. Arteries are vessels that take blood from the heart. Veins are those that bring blood back to the heart, and the connecting vessels are called capillaries. While these little vessels are contracting the skin itself becomes tauter. In a few moments or minutes the effects change.

The tiny nerves whose stimulation caused contraction of the capillaries are now or less paralyzed and the vessels dilate so the skin gets red. Soon the veins are dilated, and the skin becomes bluish. Then the nutrient fluid in the skin (the lymph) is coagulated, and the stretched skin ruptures or "chaps." If the cold is more severe its action is deeper, and the blood itself may be coagulated. This is frostbite.

Oppressive Pettiness. M. Ernest Lavigne has turned aside from his historical labors to relate a bonnet by his friend Massenet. It was at a time when the musician was changing apartments and the historian inquired the motive of the change. "I was too well known there," Massenet replied. "Everybody was too oppressively polite. Only the other day I happened to buy a penny stamp in a tobaccoist's shop. 'Pray do not trouble to carry it,' said the tobaccoist. 'It will give us the greatest pleasure to send it round to you.'—Westminster Gazette.

Evolution of a Play. "They tell me that plays are built up. Is that so?" "It is," answered the playwright. "Here is the method. I copy a joke. I tell it around, and it goes. Next I make a dialogue of it. Then I add a character, and it becomes a vaudeville sketch. If it still goes good we make three acts of it, and then it's a play."

STARTLED THE VISITOR.

A Joke an English Lord Played on an American Woman.

Lord Rosemore once started an American lady, a Mrs. Ronalds, whom he encountered at the residence of his sister, Mrs. Candy, in the aristocratic Park Lane of London. He relates the incident in "Things I Can Tell."

She knew my sister, who called her Fanny, and as I thought Fanny was a very pretty name I said to her: "I think I'll call you Fanny too."

Mrs. Ronalds hadn't the least idea who I was, and she said, half laughing: "Well, I declare, I never saw such a person."

Just then I caught sight of the reflection in a mirror of my other sister, Mrs. Stirling, who was about to enter the room.

"I'll do more than call you Fanny," I continued; "I'll kiss the next woman who comes in."

Mrs. Ronalds looked perfectly horrified. "You won't!" she gasped.

"Won't I? Just see!" With this I wheeled round, and, catching Nora in my arms, I gave her a kiss.

I believe Mrs. Ronalds must have thought that her hostess was entertaining a madman unwares, but when the relationship of Mrs. Stirling and myself was explained she enjoyed the joke as much as any one.

A NICE COOL BED. The Surprise a Trio of Laplanders Sprung Upon Nansen.

Sir Henry Lucy tells in the Cornhill Magazine a good story that he had from Nansen, the explorer, illustrating the hardy health of the Laplanders.

Part of Nansen's equipment for his trip across Greenland consisted of two sleeping bags made of undressed skins. On the first night of the journey Nansen and his two Norwegian companions got into one of the bags, pulled the mouth tight across their necks, and so slept in the snow with only their heads out.

Before retiring to rest Nansen saw the three Laplanders he had engaged for the expedition cozily tucked into the other sleeping bag. When he awoke in the morning, almost numb with cold, he observed that the bag in which he had tied up the Laplanders was empty and that they were nowhere in sight. He was afraid they had deserted him and, scrambling out of the bag, went in search of them. He found the three men fast asleep behind a hillock of snow that they had scraped together as a protection against the wind.

"Ah, monster," they said when asked to explain this extraordinary conduct. "We couldn't sleep in that thing. It was too hot, so we got out and have had a comfortable night here."

Floating Farms of China. Like the wood merchants of northern Russia, who carry their wood on great rafts to Nijni Novgorod, Kusan and Astrakhan, the farmers of the upper and central regions along the Yangtsing construct rafts covering as much as two acres of surface, and on the rafts they establish farms, where produce grows. On these great floating farms are habitations for the men and stables for the animals, pigpens, feed barns and storehouses well stocked with provisions. The voyage to market is often 1,000 miles, and to employ their time on the slow journey the dwellers on the rafts make baskets and many objects of household use. Arrived at their destination, they sell their produce, take apart and sell the rafts and return to their homes by the ways used by ordinary travelers.—Harper's.

"He might carry a big life insurance, you know," she hinted.—Baltimore American.
